NEW ENDOWED SCHOLARSHIPS

Ed Kalikow '78

Sidney Kalikow Endowed Scholarship

Ed Kalikow '78 and his family value traditions. President and CEO of The Kalikow Group, a multi-dimensional real estate firm with its headquarters located in Westbury, New York, Ed is the third generation to work in the family real estate business begun by his grandfather, Joseph, and expanded by his father, Sidney. Ed and his family have also established traditions at Hofstra Law School. Ed's son, Greg, began his legal studies at Hofstra in fall 2007. To honor this occasion as well as to recognize the profound impact that Ed's father had on him and Greg, Ed recently created the Sidney Kalikow Endowed Scholarship, the second of his family scholarships at the school.

"The fact that my son, Gregory, began Hofstra Law School this year and is being taught by two of the same professors who taught me 30 years ago speaks volumes about what a special school we have. Hofstra is an institution that has made a significant impact on my life, will undoubtedly make a similar impact on my son's, and as such is worthy of our support." The Sidney Kalikow Endowed Scholarship will be awarded annually to a deserving student entering Hofstra Law School.

Although Ed did not pursue a traditional law practice, he recognizes the value of his law degree and how it has helped him to build a hugely successful real estate company. "In my professional career, I appreciate every day the education and knowledge I gained from attending Hofstra Law." The Hofstra Law School community, in turn, appreciates all that the Kalikow family — Ed, wife Gwen, son Gregory, and daughter Stephanie — have done to make it possible for other students to benefit from their own legal education.
